Reply to Office Action of December 13, 2007

**APR 08 2008**

PATENT  
Docket: CU-5962

**Amendments to the Claims**

The listing of claims presented below replaces all prior versions, and listings, of claims in the application.

**Listing of claims:**

1-69. (canceled)

70. (currently amended) A system for differentiating two or more cables of two or more respective appliances, the system comprising a respective tying device for tying to a respective cable, ~~wherein each tying device is provided in a differentiated form from each other tying device;~~

wherein each tying device comprises:

an elongate member for releasable securement at a cable by wrapping around the cable;

a planar enlarged portion arranged on the member for insertion through a hole located in the member, the enlarged portion including a raised portion thereon to provide that part of the enlarged portion with a thickness greater than a remainder of the enlarged portion;

wherein the device being configured such that the enlarged portion can be passed from one side of the member, completely through the hole, to an opposite side of the member to be secured at the opposite side; and wherein the elongate member has the same thickness as the remainder of the planar enlarged portion.

71. (previously presented) A system as claimed in claim 70 wherein indicia are pre-applied to an external surface of the raised portion.

72. (previously presented) A system as claimed in claim 70 wherein the enlarged portion of the device at least is made of a flexible material.

73-79. (cancelled)

80. (currently amended) A card comprising a plurality of detachable elongate members, each of the members being frangibly joined to the card for detachment therefrom, an enlarged portion being defined in at least one of the members for

insertion in use through a hole located in the at least one member, the enlarged portion being ~~connected to at least one elongate member and being~~ insertable through a hole located in the at least one member; wherein ~~[[the]]~~ elongate portion of the member has a transverse width greater than a corresponding transverse width of the hole.

82-84. (cancelled)

85. (currently amended) A card comprising a plurality of detachable elongate members, each of the members being frangibly joined to the card for detachment therefrom, an enlarged portion being defined in at least one of the members for insertion in use through a hole located in the member, the enlarged portion being a planar enlarged portion arranged on the member for insertion through a hole located in the member, the enlarged portion including a raised portion thereon to provide that part of the enlarged portion with a thickness greater than a remainder of the enlarged portion; wherein ~~[[the]]~~ an elongate portion of the member has a transverse width greater than a corresponding transverse width of the hole.

86. (previously presented) A card as claimed in claim 85 to wherein the members are each made of the same material as the card.

87-108. (cancelled)
